Genetics and farm animal breeding

1. E. Słota, A. Kozubska-Sobocińska, M. Kościelny — Identification of the active X chromosome using RBA-banding technique 5
2. A. Janik, T. Ząbek, A. Radko — Analysis of usefulness of 11 DNA microsatellites for parentage control in Limousin cattle 11
3. P. Wójcik, A. Majewska — Estimating the relationship between rump conformation score and rump measurements 21
4. T. Blicharski, M. Pierzchała, R. Eckert — Fattening and slaughter value and incidence of PSE meat in crossbred pigs sired by boars of different breeds 29
5. K. Pieniak-Lendzion, R. Niedziółka, W. Szeliga — Comparison of slaughter value and some quality traits of ram lambs and goat kids 35

Biology, physiology and animal reproduction

6. B. Gajda, Z. Smorag — *In vitro* survival of rabbit embryos vitrified in EFS medium with 50, 70 or 100% increased PBS salt concentration 41

Animal nutrition and feedstuffs

7. B. Kaproń, B. Nowakowicz-Dębek — Effect of winter weight gains on pasture grass intake capacity of saddle breed foals aged 12–18 months 47
8. F. Brzóska, M. Pietras, B. Brzóska — Effect of salt licks and mineral mixtures with iodine on cows' yield, iodine content of milk, milk nutrients and blood constituents 55
9. W. Wiewióra, F. Brzóska, B. Brzóska — Effect of selenium in daily ration on cows' yield and selenium concentration in milk and blood 67
10. A. Frankiewicz, A. Potkański, M. Urbaniak, W. Mroczyk, M. Kasprowicz — Endosperm of milk thistle (*Sylibum marianum* L.) in fattening pig nutrition 81
11. S. Świątkiewicz, J. Koreleski, A. Iwanowska — Effect of different antioxidants in diets supplemented with rapeseed oil on composition and susceptibility to oxidation of yolk lipids and performance of laying hens 89
12. M. Pieszka — Effect of vitamin A level in fat-added feed mixtures for broiler chickens on oxidative stability of meat lipids 101
13. P. Hanczakowski, B. Szymczyk — The effect of potentially hypo- and hypercholesterolemic diets on serum lipids profile in rats 109
14. F. Brzóska, W. Brzeziński, B. Brzóska — Mineral nutrients in Polish feedstuffs. Part 1. Fodder plants 115

Environment, hygiene and animal production

15. R. Skrzypek, S. Osieglowski, D. Hofmański, M. Grzymisławska, S. Grzymisłowski — Biological and economic evaluation of milk replacers for calves 127

16. E. Matuszewska, J. Walczak, W. Krawczyk — Group housing of sows with piglets in the late rearing period 137
17. H.T. Korhonen, L. Jauhiainen, P. Niemelä — Effect of swimming deprivation on adrenocortical and behavioural responses in farmed mink (*Mustela vison*) 145
18. A. Mazanowski, K. Dziadek — Traits of Graylag, White Kołuda and Slovakian goose crossbreds relative to direction of crossing 165

Economics and organization of animal production

19. S. Okularczyk — Protein price and production costs vs. biological value of protein in different plant and animal products 185
20. S. Okularczyk, M. Mokrzycka — Profitability of producing animal-origin raw materials depending on their qualitative traits 191
