

CONTENT

**Genetics and farm animal breeding**

1. M. Bugno, M. Owczarek-Lipska, A. Pieńkowska-Schelling, E. Słota — Variation in the size of the Y chromosome in four breeds of domestic horse . . . . . 5
2. T. Ząbek, A. Żyga, A. Radko, E. Słota — Analysis of genetic variation in Małopolski horses using molecular and pedigree data . . . . . 13
3. U. Czarnik, T. Zabolewicz, C.S. Pareek, R. Ziemiński, K. Walawski — Evaluation of putative relationship between PRNP octapeptide repeat polymorphism and variability of milk production traits in cattle . . . . . 29
4. A. Felenczak, A. Fertig, E. Gardzina, M. Ormian, J. Trela — Technological traits of milk of Simmental cows as related to  $\kappa$ -casein polymorphism . . . . . 37
5. J. Komisarek, K. Waśkowicz, Z. Dorynek — Analysis of the relationship between two single nucleotide polymorphisms of the butyrophilin (*BTN1A1*) gene and milk production traits in Jersey cattle . . . . . 45

**Biology, physiology and animal reproduction**

6. J. Pytlewski, I. Antkowiak, Z. Dorynek — Relationship between interpregnancy interval and lifetime productivity of cows . . . . . 53
7. A. Mazanowski, Z. Bernacki, M. Adamski, T. Kisiel — Analysis of time trends for reproductive and meat traits in randomly mated conservation flocks of northern variety geese . . . . . 59
8. A. Mazanowski, E. Samorek-Salamonowicz, M. Urbanowski — Level and duration of persistence of antibodies in the blood serum of native varieties of geese after vaccination against Derzsy's disease . . . . . 75

**Animal nutrition and feedstuffs**

9. F. Brzóska — Effect of rapeseed meal protected with calcium salts of fatty acids from linseed oil on cows' yield and milk and blood parameters . . . . . 87
10. E. Hanczakowska, J. Urbańczyk, I. Kühn, M. Świątkiewicz — Effect of glucanase and xylanase supplementation of feed for weaned piglets . . . . . 101
11. A. Szewczyk, F. Borowiec, E. Hanczakowska — Fatty acid and cholesterol content of meat of broilers fed linseed oil or different linseed varieties . . . . . 109
12. S. Nowaczewski, H. Koncecka, E. Pruszyńska-Oszmałek — Effect of feed supplementation with vitamin C on haematological indices, corticosterone concentration in blood and duration of tonic immobility in pheasants . . . . . 117

**Environment, hygiene and animal production technology**

13. S. Kornaś, B. Nowosad, M. Skalska — Dynamics of small strongyle (*Cyathostominae*) infection in horses under different management systems . . . . . 129
14. P. Paraponiak — Effect of crossbreeding on pasture rearing of lambs and chemical and sensory properties of slaughter material . . . . . 139

- 
15. Hannu T. Korhonen, L. Jauhiainen, T. Rekilä — Effects of year-round nestbox availability and temperament on welfare and production performance in blue foxes (*Alopex lagopus*) 149
  16. I. Skomorucha, E. Herbut — Use of an earth-tube heat exchanger to optimize broiler house climate during the summer period . . . . . 169
